PH, JHS Re CD351-Butler-withholding

You do not make clear that you have asked or gotten the allegod basis of the withholding. Have I missed something or is this to be your response? Jane Smith's name is new to me, as is her title and function. I have indicated knowledge and belief Re Butler in the past. I now have more, i.e., his appearance with Nazi flags at the convention of the NYA in western Pa., which fits with what I earlier sent you on his plugging of Imperium on his TV scatology. I think Butler saw his chance, used his connections and moved in, for selfish purposes is sufficient explanation. However, it does not explain what followed. Now that he is on the decline, he seems to be less hidden in his self-disclosure and this may be a time to ask him for it, that is, his testimony, which I am sure he has-after you find why his stuff is withheld. It might even pay to tell him that, depending on what you get in explanation.
